

PBR1

This standard 6" round push plate is the premium design for wall applications as it is functional, aesthetically appealing and weather resistant.

A Plate Revolution, Now!

PBR Series

Stainless Steel 6" Round Style Push Plates

- Greater surface area of the push plate makes this push plate easy to see
- Perfect for wall applications
- Beveled edges provide a tamper and vandal proof solution to your push plate needs, allowing no room to get objects between plate and box
- An all-active plate activates with any "push" location
- Stainless steel finish will not deteriorate/rust where it is touched and is scratch and scuff resistant
- Text and logo are baked onto the surface for leading durability
- Screws come in multiple sizes (#6 & #8), which fit both single and double gang mounting boxes
- Push plates come in multiple colors and sizes that allow you to easily meet specifications and customer requests
- Weather boot between plate and back plate for all weather applications
- Lifetime warranty allows you to save money in the long run

Components

- 1 Front Plate
- 2 Back Plate
- 3 Cherry Switch
- 4 Weatherboot

- f. Powdercoat then clear coated faceplates available on certain styles
- g. Wire nuts

Custom Specifications

BEA proposes a variety of custom solutions for your push plates:

Abrasive Etching/Engraved – This method creates a very accurate and deep "scratch" in the plate that is then filled with paint to create the custom logo/text on the surface of the plate.

Pad Printed – Logo/text is actually stamped onto the surface of the steel plate using a special pad. The logo is only printed on the surface of the plate.

Embossing – This process requires the use of a special tool designed to punch the back of the face plate with the custom information. A special coating is added to create a dramatic 3D embossing for your push plate.
