Brackets & Accessories

Quality
Intelligence
Precision

BEA offers wide variety of Maglock accessories that are designed to assist in installation.

- L & Z brackets for use on in-swinging door installations.
- U Brackets provide necessary hardware for mounting Maglock armature to a solid glass door.
- Vertical spacer allows the lock to be moved vertically on the door.
- Armature Housings increase overall reliability of the installation while providing an aesthetically pleasing mounting option.
- Filler bars are used to extend the door stop and creates a flat mounting surface for the Maglock.
