LZR®-i30
LASER SCANNER FOR INDUSTRIAL DOOR AND GATE SAFETY

DESCRIPTION
BEA’s LZR-i30 is a laser-based time-of-flight sensor. This high precision technology ensures accurate object detection. The product configuration provides four laser-based curtains offering a three dimensional safety zone.

The sensor is designed for the detection of people and vehicles, in both indoor and outdoor environments. The detection accuracy makes this sensor ideal for high performance industrial doors, vehicle flow safety, perimeter protection and variety of applications.

The LZR-i30 is housed in a NEMA 4 rated enclosure and can be installed in outdoor, industrial and other harsh environments. Adjustments can be made using a BEA remote control and three reference LED spots to ensure the detection zone is accurate and precise.
