1. From the previously installed Door Mounted Sensor Harness (20.5215.02) connected at the DP-Hub at location marked "DM1", cut the Orange and Orange/Black wires (leaving enough length for splicing) from 8-Pin Connector.

2. Connect the 2 Home Switches in Series by routing the Pink and Green/Black Loose wires from the Wiring Harness (20.5246) from CU2s to DP-Hub and splice the orange wire from "DM1" to Pink wire from first CU2.

3. Splice the Green/Black wire from first CU2 to the Pink wire from the second CU2.

4. Splice the Green/Black wire from second CU2 to the Orange/Black wire.
